Heat Shield Sleeve

HOSE ARMOR™ SLEEVE

Heatshield Products Hose Armor™ Sleeve thermal-barrier product can shield radiator hoses and hydraulic hoses from external heat damage, increasing their life and preventing breakdowns. Use Hose Armor™ Sleeve to protect your air air-intake tubes from radiant heat caused by radiator hoses, lowering intake temperatures and increasing horsepower. A special thermal coating allows the sleeve to reflect and dissipate heat. The special braid gives it an expandable inside diameter of that can expand up to 20% of the nominal inside diameter. The Hose Armor Sleeve is capable of withstanding 1,200 degrees F continuous. These kits include 2 HP Shrink to seal the ends onto hoses.

FEATURES:

-  **500°F** CONTINUOUS  **900°F** INTERMITTENT
- Capable of reducing up to 60% of radiant heat
- Helps to prevent fuel-system vapor lock
- Protects wires from melting
- Sleeving wall thickness is 1/16 inch thick
- Made in the USA

PART NO.	DESCRIPTION
240003	1 3/4-in id x 3 ft Roll
240011	1 1/2-in id x 3 ft Roll
