

Product Specification Sheet

Reflect-A-Shield™
Part #'s: 100507, 100614, & 101420

Product Overview:

Reflect-A-Shield™ is a versatile and flexible heat shield for many applications. Sewn edges allow for greater flexibility as opposed to similar products that are folded and stamped. Outer membrane is thicker, tougher, and offers greater insulation than similar products. Use as a catalytic converter, muffler, and exhaust heat shield. Also excellent for firewalls, floorboards, and wrapping around vital engine components. Fasten using Thermal-Tie™ screws, rivets, safety wire, or high temperature adhesives.

Component Specifications:

Outer Jacket:	.002" Aluminum 450°F contact temp 1000°F reflectivity
Insulation:	6lb/cf ceramic ¼" 2000°F service temp
Edge Binding:	304 stainless steel sewn with 1500°F thread
